Comments Report

STUDENT INFORMATION

27a. Please comment why or why not:

- Could have made the tests more note driven
- Find ways to make the material a little more interesting. It's hard to be engaged when you're just being talked at most of the class period.
- Honestly, she put a lot of effort in making sure we understood everything and had no questions (even if sometimes we didn't answer her). We only had technology problems with the projector.
- I don't know, I think this already is great.
- I think my instructor did a really good job of teaching to the size class that we had and made sure to make it a comfortable environment where anyone could ask questions when needed.
- Printing out the slides and the packets helped a lot.
- Provide more examples of worked through problems as well as less multiple choice questions on the exams. Instead of the multiple choice use matching?
- She already does an amazing job
- She did a great job in engaging with every student and trying to help everyone succeed in the course.
- She did an amazing job, no complaints.
- She did really well. My only complaint was her office hours.
- She was awesome, explained everything and answered any and all questions we had.
- She was consistently on time, informational and open to feedback from students.
- The instructor gave lots of opportunities to get extra help and to boost the grade. She really cared to make sure everyone understood the material, so if a student wasn't successful, it was their own fault.
- The main issue is that concepts and definitions are what is covered most in class. I struggled with this course because applying concepts to exam questions was a big disconnect. The instructor only showed how to solve problems that were minimal and simple. There needs to be an equal focus on concepts and then applying the to questions. definitions do not help if you do not know how to apply them.
- The only way that the instructor could improve this course would be to have more exams throughout the semester. There have only been two exams, and a lot of material is covered on each exam, and not a lot of opportunity to alter your exam grade.
- none
- she did great
- she gave us every opportunities to do well but still learn
- slower pace
